Healthy Men and Women Needed for a Research Study

The Vascular Physiology Lab is studying whether blood flow and pressure differ between men and women and whether they change throughout a women’s menstrual cycle.

You may be eligible if you are:

- Between 18-40 years old
- Non-smoker
- Have a regular menstrual cycle (women)
- Not using hormonal contraceptives or birth control (women)
- Not pregnant or breastfeeding (women)

Participants will be compensated.
